

Summer Reading

Dear Parents,

Research has shown that students who read at least 5 books over the course of the summer do not lose the reading skills that they gained during the school year. The enclosed lists are a great starting point for summer reading suggestions. The most important thing is that students read books that they enjoy. The library is offering a special reading incentive program this year. If your child reads any five books, they can come in at the start of the new school year during their scheduled library time and receive a prize. If they read 10 books, they can receive 2 prizes. Happy summer reading!
